PARKS, RECREATION & GOLF • DOUG CHASE, DIRECTOR

Wittkopf Team,

Just wanted to send a quick note to the folks at Wittkopf Landscape Supplies about their phenomenal product, Triple Play with Wittkopf Field Conditioner. I've been around baseball/softball for over 30 years and have never had a product accept water as well as the Triple Play product. Additionally, there are no rocks or other foreign materials within the product, which allow for a true playing surface! Our County Parks and Recreation Department just completed a new set of fields at Prairie View Park on the south hill and used this product and have been amazed at how well it has held up to any moisture. If you're looking to be able to play games or practice, after or during the rain, this is the product for you!
